Come See What We Are All About!

Join our Preschool Program at Immanuel starting August of 2021-2022 and the first semester (Aug-Dec) is FREE!

We're so confident you'll love what we have to share, that we are giving it to you for FREE! Come check us out, you won't be disappointed!

Immanuel's PK3 program utilizes a curriculum, with a concentration on readiness skills such as gross and fine motor skills, print awareness, phonics, and math awareness. Daily activities include manipulatives, arts and crafts, circle time, free play, snack and table time, show and tell, and Jesus Time.

At Immanuel Preschool, we believe that "hands on" learning is extremely important for young learners. Children are engaged as they learn the alphabet and their numbers to 20, while applying their gross and fine motor skills. Socialization is a key component of a preschooler's learning. Children will learn how to transition from a home setting to a school setting, while learning how to follow directions and how to be kind to others. At Immanuel, your child will be immersed in academics as we share the love of Jesus with them each and everyday!
