

FAUROT'S FRIDAY

FACTS 😊 2/23/18

These four day weeks go by so quickly!

We worked on the -it family. Our favorite sentence was "Sit in the pit and don't get hit." 😊

We are still reading a lot of books about emotions. We have talked about anger and discussed strategies for calming down. We read a story about a girl who was scared of storms. We decided being scared might good...it can help us to be more cautious.

We started our "Healthy Body" Unit by learning about our skin and our hearts. We listened to our hearts with a real stethoscope and counted our heart beat at rest and then again after running in place. By the way, ask your favorite kindergartner what makes the sound we call our heart beat.

God's Peace,

Mrs. Faurot
